THE KILGORE SEED COMPANY

GENERAL OFFICE AND MAIL ORDER DEPARTMENT

Plant City, Florida

IMPORTANT DIRECTIONS TO CUSTOMERS

By carefully observing the following directions, mistakes and misunderstandings will be very largely avoided

How to Order

Please be careful to sign your name, box number, street or rural route, post office and State on every order. Be sure to tell us your nearest express or freight office should you desire the seed forwarded by express or freight.

Cash With Order or C.O.D.

Ours is a cash business, and our prices are made on that basis. Customers are requested to remit when ordering and by so doing save the C.O.D. fee charged by express companies, banks, and postal authorities for collecting and returning money.

Perishable Items Not Sent C.O.D.

Perishable items such as rose bushes, nursery stock, etc., are not sent C.O.D. under any circumstances.

How to Send Money

Remittances should be made by post office money orders, express money orders, drafts or checks.

Remittance by Stamps

On orders for seeds where the amount is less than 50 cents, we will accept stamps in good condition the same as cash, but we would ask those remitting stamps to wrap them in oiled paper, if possible, to prevent their sticking together or to the order.

We Pay Postage to Points in Florida

Please bear in mind that the postpaid prices indicated in this price list include delivery to any point in Florida.

Prices Subject to Change

The prices indicated in this price list supersede all former quotations including catalogs and previous price lists.

This price list is printed during the Summer. The market on many items of garden and field seeds, as well as supplies, has not yet been fully established. Consequently, prices on these items indicate value at time these pages are printed. In practically all cases orders will be filled at prices indicated in this price list *but all prices are subject to change without notice.* Write for prices on larger quantities.

Non-Warranty

The Kilgore Seed Company gives no warranty, expressed or implied, as to the productiveness of any seeds, bulbs or plants it sells, and will not be in any way responsible for the crop. Its liability in all instances is limited to the purchase price of the seeds, bulbs or plants. If the seeds, bulbs or plants are not accepted on these terms, they are to be returned at once in unopened packages.

Return of Seeds for Exchange

To safeguard our customers and ourselves we will not permit seeds to be returned if the package containing the seeds has been broken. Unbroken packages may be returned for exchange within a period of ten days after we have sent out the seeds, in case a mistake has been made in filling your order, and we will gladly make correction without any expense to you. No customer would want to plant seed that had been returned from broken or opened packages, nor would we feel safe in filling an order with such returned seed. This is one reason we have never followed the policy of putting out our seeds to dealers. Our seeds are never out of our hands until they are sold direct to you through our mail order department or through one of our own stores.

INFORMATION REGARDING THIS FALL PLANTING GUIDE FOR FLORIDA, KILGORE'S ANNUAL CATALOG, AND KILGORE'S FLOWER GUIDE FOR FLORIDA

Instead of sending out a fall catalog, we are furnishing you with this Fall Planting Guide for Florida. This serves as a supplement to Kilgore's large annual catalog, in which will be found complete detailed cultural directions for all vegetable crops when grown under Florida conditions, along with accurate descriptions of each variety listed. Our annual catalog also contains a complete listing, with prices, of different fertilizers, insecticides and fungicides, sprayers, dusters, Planet Jr. tools, miscellaneous tools and farm supplies, canning equipment, poultry and beekeeper's supplies, a stock of all of which we keep at all times in our twelve Florida stores, also in our mail order department, Plant City, Florida. If you have misplaced or lost your annual 1944 catalog, we will gladly send you another copy upon request, or send you prices and information you desire with reference to any of the grower's supplies we handle.

Kilgore's large, new Annual Catalog for 1945 will be available about the first of December, 1944. If you do not receive a copy of this valuable book through the mail by the middle of December, just drop us a line to Plant City, Florida, and we will gladly send you a free copy and place your name on our mailing list.

If interested in beautifying your home surroundings with flowers write for "Kilgore's Flower Guide for Florida." Our next edition of this valuable Flower Guide will be available about September 1st, 1944. Send for your free copy.

TRANSPORTATION CHARGES

In making your order do not fail to include the necessary postage when the items you are ordering are not marked "Postpaid." Often, especially on small packages, you can save money by taking advantage of the low parcel post rates. If you fail to include postage, we will necessarily have to reduce the order or send "Express or Freight Collect."

When shipments are to be made by Express or Freight, it is very important that you designate your Express or Freight Station.

SERVICE

Prompt, courteous and efficient service is a Kilgore motto, which we have lived up to for over 35 years.

When your order reaches us it is filled at once, or if we cannot fill same you are notified immediately.

Twelve Kilgore Seed Stores and our Mail Order Department at Plant City are at your service.

Twelve Kilgore stores, serving Florida, are located at:

**Belle Glade
Gainesville
Homestead
Miami
Pahokee
Palmetto**

**Plant City
Pompano

Wauchula
West Palm Beach**

FLORIDA WAR GARDENS FOR VICTORY

By planting a Florida war garden this season, you are not only helping yourself and your family, but you are performing a patriotic service for your country. The more vegetables that are produced on Florida farms and in Florida gardens for home use, the more vegetables will be available from the big commercial farms of Florida for northern city people, for men in the service, and for our Allies. There will be a greatly increased demand for commercially grown Florida vegetable crops this coming season. Remember, "Food will win the war and write the peace."

Florida people, city residents as well as rural folks, can help win the war by producing vegetables in the home garden that they would otherwise do without or would have to buy. Reduced supplies and high prices of fresh vegetables in the market have proven beyond all doubt the vital need of home garden production in our war economy.

Florida climate and soils are favorable for producing the finest vegetables in the United States. Unlike any other State in the Union, in Florida fresh vegetables can be grown every month in the year, especially during the fall, winter and spring months when they cannot be grown in other sections of the United States. In addition to producing fresh vegetables in your Florida war garden, plans should also be made for preserving vegetables from the garden by canning for home use, which will mean not only better health for the family, but also a material saving in cost.

Doctors, nurses and dieticians all advise the use of a plentiful supply of fresh vegetables in the diet in order to provide the essentials which are so necessary for the health of the human system. Experts tell us that vegetables contain a higher percentage of these body-regulating essentials, such as mineral salts, vitamins and roughage than are contained in any other food or food products. Statistics prove that people who eat lots of fresh vegetables throughout the year have less sickness and fewer doctor bills to pay than people who use fresh vegetables sparingly. The health of our people has become largely dependent upon the output of war gardens.

Grow more vegetables in Florida war gardens this season. They will help in our present victory drive and will produce better health and more vitality. During these critical war times, let our slogan be "What is a Florida home without a garden?"

What Vegetables and When to Plant During the Late Summer and Fall Months in Florida

(VEGETABLE SEEDS)

AUGUST. Broccoli, Brussels Sprouts, Cabbage, Chinese Cabbage, Cucumbers, Cauliflower, Celery, Celtuce, Collard, Eggplant, Endive, Kale, Lettuce, Peppers, Fall Potatoes, Mustard, Okra, Onion Sets, Radishes, Spinach, Squashes, Tomatoes, Turnips, and Rutabagas.

SEPTEMBER. Bush Beans, Beets, Broccoli, Brussels Sprouts, Cabbage, Chinese Cabbage, Carrots, Cauliflower, Celery, Celtuce, Collard, Cucumbers, Endive, Kale, Kohl Rabi, Leek, Lettuce, Mustard, Okra, Onion Seed and Sets, Parsnips, Parsley, Garden Peas, Irish Potatoes, Rhubarb, Rye, Radishes, Rape, Romaine, Spinach, Squashes, Tomatoes, Turnips, and Rutabagas.

OCTOBER. Bush Beans, Beets, Broccoli, Brussels Sprouts, Cabbage, Chinese Cabbage, Carrots, Cauliflower, Celery, Celtuce, Collard, Endive, Kale, Kohl Rabi, Leek, Lettuce, Mustard, Onion Seed and Sets, Parsnips, Parsley, Garden Peas, Potatoes, Rhubarb, Radishes, Romaine, Spinach, Turnips, and Rutabagas.

NOVEMBER. Beets, Broccoli, Brussels Sprouts, Cabbage, Chinese Cabbage, Carrots, Cauliflower, Eggplant, Endive, Kale, Kohl Rabi, Leek, Lettuce, Mustard, Onion Seed and Sets, Parsnips, Parsley, Potatoes, Garden Peas, Pepper, Rhubarb, Radishes, Romaine, Spinach, Turnips, and Rutabagas.

DECEMBER. Beets, Broccoli, Brussels Sprouts, Cabbage, Carrots, Chinese Cabbage, Cauliflower, Celery, Collard, Eggplant, Endive, Kale, Kohl Rabi, Leek, Lettuce, Mustard, Onion Seed and Sets, Parsnips, Parsley, Potatoes, Garden Peas, Pepper, Radishes, Spinach, Turnips, and Rutabagas.

Florida Growing Conditions.**

Making a Seedbed to Start Plants

Small seeds such as celery, lettuce, endive, pepper, eggplant, tomato, etc. should always be sown in seedbeds. The soil in seedbeds must be put in perfectly fine condition and made into beds four to six or more inches high, to prevent overflow in case of heavy rains. When the soil in the seedbed is in condition—thoroughly and finely pulverized, moist, and made perfectly smooth and level—sow the seed broadcast or in rows six inches apart.

We recommend the use of burlap or white muslin to be used as a cover over the seedbeds, stretching it on a three- or four-foot wide tent-shaped or slanting frame built over the seedbed, with the sides about 12 inches from the ground to provide ample circulation of air under the cover. This seedbed cover will serve as a shade, also break the force of heavy rains. It may be also advisable to use ground covers of burlap or old fertilizer bags. When seeds begin to germinate, covers should be removed immediately to prevent growth of leggy or spindly, weak plants. After the seed is sown, it is desirable to sprinkle every evening or oftener if necessary with cool water by means of hand sprinkling pots in order to keep the soil cool and moist, which tends to increase germination of seeds during the hot summer and early fall months.

When plants in the seedbed are about six inches high, transplant to the field or garden, preferably on a cloudy day or toward evening, and water the plants thoroughly immediately after setting. Some shading would be desirable for a few days until transplanted plants become established.

Preparation and Fertilizing of the Soil for the Home Vegetable Garden

The soil in the garden should be carefully and well prepared. Bermuda grass and weeds should be removed with all roots. A little extra time spent in preparing the soil for planting will save many hours of hoeing later in the season. It is best to spade or plow, and apply commercial fertilizer to the soil ten days to two weeks before planting in order to avoid burning the seed or young plants.

Well rotted animal manure may be used as a fertilizer, at the rate of approximately 25 to 30 lbs. of manure, and 2 ½ to 3 lbs. of Acid Phosphate for each 100 square feet of garden. If manure is not available, leaf mold or black muck or hammock soil are ideal materials to work into the garden soil. If none of these materials are available, a two- or three-inch layer of horticultural grade peat moss (Page 23) may be worked into the garden soil. This material is clean and easy to handle, and is a wonderfully effective material for breaking up hard soil, making it mellow, or for adding humus to sandy soil, making it more retentive of moisture and fertilizer materials. After this peat moss is worked into the soil, an inch or two-inch layer of Wizard Brand Sheep manure along with a liberal application of a good garden fertilizer such as Vigoro or a special Victory Garden fertilizer such as a 5-10-5 mixture (see page 23) should be used, applying one of these fertilizer materials broadcast at the rate of 4 to 6 lbs. per 100 square feet. If this material is raked into the surface soil a week or ten days before planting you will have the foundation for an excellent vegetable garden. If the fertilizers are applied just before planting, they are very liable to burn the young plants as they emerge from the seed.

After the vegetable plants are well started in the garden, a complete fertilizer such as Vigoro, or a special Victory garden fertilizer mixture, 5-10-5 formula, (see page 23) applied lightly on either side of the row of vegetables, but not in contact with the leaves or stems to avoid burning, every two or three weeks will make thrifty plants which produce an abundant supply of high quality vegetables for the home table.

Note:—All materials indicated above, such as Wizard Brand Sheep Manure, Peat Moss, Acid Phosphate, Vigoro, and the 5-10-5 Victory Garden fertilizer mixture, are available at all Kilgore Seed stores, and in our mail order department at Plant City, Florida. (See page 23).

Spacing For Vegetable Plants in the Field or Garden

<i>KIND OF VEGETABLE PLANT</i>	<i>Space Between Rows</i>	<i>Set Plants from Seedbed, or thin out to inches in row</i>
Beans (Bush)	1½ to 2½ ft.	2 to 3 in.
Beans (Pole)	3 to 4 ft.	3 ft. (hills)
Beans (Bush Lima)	2½ to 3 ft.	4 to 5 in.
Beans (Pole Lima)	3 to 4 ft.	3 ft. (hills)
Beet	1½ to 2 ft.	2 to 3 in.
Broccoli	3 ft.	18 to 24 in.
Brussels Sprouts	2½ to 3 ft.	18 to 24 in.
Cabbage	2½ to 3 ft.	12 to 18 in.
Chinese Cabbage	2½ to 3 ft.	8 to 12 in.
Cantaloupe and Muskmelon	4 to 5 ft.	4 ft. (hills)
Carrot	1½ to 2 ft.	1½ to 3 in.
Cauliflower	2 to 3 ft.	18 to 24 in.
Celery	2 to 3 ft.	3 to 5 in.
Celtuce	2 ft.	12 to 15 in.
Collard	2 to 2½ ft.	14 to 18 in.
Corn (Sweet)	2½ to 3 ft.	15 to 18 in.
Corn (Roasting Ear)	3 to 3½ ft.	18 to 24 in.
Cucumber	4 to 5 ft.	2 to 3 ft. (hills)
Eggplant	3 to 4 ft.	36 in.
Endive (Escarolle)	1½ to 2 ft.	9 to 12 in.
Garlic	18 in.	4 in.
Kale	2 ft.	15 to 20 in.
Kohl Rabi	1½ to 2 ft.	4 to 6 in.
Leek	1½ to 2 ft.	4 to 5 in.
Lettuce (Head)	1½ to 2 ft.	10 to 15 in.
Lettuce (Leaf)	1 to 1½ ft.	10 to 12 in.

Mustard	1½ to 2 ft.	6 to 10 in.
Okra	2 to 3 ft.	15 to 20 in.
Onion Seed	18 in.	2 to 3 in.
Onion Sets	18 in.	1 to 2 in.
Parsley	15 to 18 in.	6 to 8 in.
Parsnip	18 to 24 in.	3 to 4 in.
Peas (English or Garden)	2½ to 3 ft.	2 to 3 in.
Pepper	2 to 3 ft.	18 to 20 in.
Potatoes (Irish)	2½ to 3½ ft.	9 to 12 in.
Pumpkin	6 to 8 ft.	5 ft. (hills)
Radish	15 to 18 in.	1 to 2 in.
Rhubarb	3 to 4 ft.	18 to 24 in.
Roselle	5 to 6 ft.	24 to 36 in.
Rutabaga	2 to 3 ft.	5 to 6 in.
Salsify	18 in.	2 to 4 in.
Spinach—Savory & Giant Nobel	16 to 20 in.	2 to 4 in.
Spinach—New Zealand	3 ft.	20 in.
Squash (Bush)	3 to 4 ft.	3 to 3½ ft. (hills)
Squash (Running)	8 to 10 ft.	5 to 6 ft. (hills)
Swiss Chard	1½ to 2 ft.	4 to 6 in.
Tomato—To grow on ground	3½ to 5 ft.	30 to 36 in.
Tomato—Staked and pruned	3 ft.	15 to 18 in.
Turnip	15 to 20 in.	2 to 3 in.
Watermelon	8 to 10 ft.	6 to 8 ft. (hills)

GARDEN SEEDS

All prices quoted are subject to change without notice.

Typical pods of Kilgore's Stringless Black Valentine

STRING or SNAP BEANS

Our bean seed is first class, high germinating, guaranteed western-grown stock, all carefully graded and hand picked. Plant 3 pecks to 1 bushel per acre with bush beans. In the garden plant 4 lbs. to 200 ft. for a family of 3 or 4 people.

The number of days to picking, indicated in parenthesis after each variety name, represents average results secured over a period of years under Florida growing conditions. These figures apply to plantings under normal conditions in Florida, and will vary somewhat in different sections, seasons, and on different soils. However, the number of days indicated will serve to show the relative maturity of different varieties.

Bean prices quoted are F.O.B. Plant City, except 2 lb. lots or less which are postpaid.
1 bushel weighs 60 lbs.

Green Podded Bush Beans

	$\frac{1}{4}$ lb.	Lb.	2 lbs.	Pk.	Bu.

We are not bound for any definite time by the prices quoted in this price list. Due to present uncertain conditions, all prices quoted are subject to change without notice. We recommend that you order as early as possible. Our Grass and Field Seeds are recleaned, well bagged, and of the highest quality stocks.

GRASSES

(For Fall Planting for Lawns and Pastures)

Good winter pastures in Florida will be more important in 1944 and 1945 than in many years because of the large number of live stock and the limited feed supplies.

All Grass seed prices quoted are F.O.B. Plant City except 1 lb. lots, which are prepaid.

Bermuda Grass (Unhulled)

For pasture, sow 25 pounds per acre. For lawns or golf courses, where a heavy thick sod is desired, sow 100 lbs. per acre, or $\frac{1}{4}$ lb. per 100 square feet.

1 lb. 85c; 10 lbs. \$7.80; 25 lbs. \$19.00; 100 lbs. \$75.00.

Hulled Bermuda Grass

Sow 1 to 2 pounds to each 1,000 square feet of lawn.

1 lb. \$1.20; 10 lbs. \$11.30; 25 lbs. \$27.75; 100 lbs. \$110.00.

Carpet Grass

For pastures, sow 25 pounds of seed per acre broadcast. For lawns or golf courses, sow 100 lbs. per acre, or $\frac{1}{4}$ lb. per 100 square feet.

1 lb. 55c; 10 lbs. \$4.80; 25 lbs. \$11.50; 100 lbs. \$45.00.

Italian Rye Grass

For grazing or hay, sow at the rate of 50 lbs. per acre. For lawns or golf courses, sow 200 lbs. per acre, or $\frac{1}{2}$ lb. seed per 100 square feet.

Write for prices, stating quantity desired.

All prices quoted are subject to change without notice.

GRASSES—(Continued)

Bahia Grass

For pasture, sow 15 to 20 pounds per acre.

1 lb. 45c; 10 lbs. \$3.80; 25 lbs. \$9.00; 100 lbs. \$35.00.

Cheat Grass (New)

(An Excellent, Hardy, Winter Grazing Crop)

For grazing, sow 30 to 40 pounds per acre.

1 lb. 25c; 10 lbs. \$1.80; 25 lbs. \$4.00; 100 lbs. \$15.00.

Dallis Grass—Imported

For grazing, sow 10 to 20 pounds per acre.

1 lb. 75c; 10 lbs. \$6.80; 25 lbs. \$16.50; 100 lbs. \$65.00.

Dallis Grass—Domestic

1 lb. 55c; 10 lbs. \$4.80; 25 lbs. \$11.50; 100 lbs. \$45.00.

CLOVERS—For Fall Planting

All Clover Seed prices quoted are F.O.B. Plant City except 1 lb. lots which are prepaid.

White Dutch Clover

Recommended especially for mixtures with Bermuda or Dallis Grass in perennial pastures.

Sow 12 to 15 lbs. per acre alone, or 6 to 8 lbs. per acre in a mixture.

1 lb. 85c; 10 lbs. \$7.80; 25 lbs. \$19.00; 100 lbs. \$75.00.

Persian Clover

For grazing from December to June. Grows well in mixtures.

Sow 8 to 10 lbs. per acre alone, or 4 to 5 lbs. per acre in mixture.

1 lb. 50c; 10 lbs. \$4.30; 25 lbs. \$10.25; 100 lbs. \$40.00.

California Bur Clover

Very valuable for grazing and permanent pastures, and is also a good soil builder.

Sow 10 to 15 lbs. per acre alone, 5 to 8 lbs. per acre in pasture mixtures.

1 lb. 45c; 10 lbs. \$3.80; 25 lbs. \$9.00; 100 lbs. \$35.00.

General Field Crops for Fall Planting

Oats

Sow 5 pecks per acre. A bushel weighs 32 lbs.

Coker's Fulgrain (33-19) or Victorgrain (Extra early, cold and smut resistant).

1 lb. 20c; 2 lbs. 35c; postpaid.

Not prepaid—8 lbs. (pk.) 55c; 32 lbs. (bu.) \$1.85.

Quincy No. 1 (New) (very rust resistant and immune to smut).

An excellent, quick growing, winter grazing oats.

1 lb. 20c; 2 lbs. 35c, postpaid.

Not prepaid—8 lbs. (pk.) 60c; 32 lbs. (bu.) \$2.00.

Rye

Sow 1 peck in drills; broadcast 1 bushel. A bushel weighs 56 lbs.

Abruzzi, 1 lb. 25c; 2 lbs. 45c; postpaid. Not prepaid—14 lbs. (pk.) \$1.35; 56 lbs. (bu.) \$4.75.

Florida Black, 1 lb. 25c; 2 lbs. 45c, postpaid. Not prepaid—14 lbs. (pk.) \$1.40; 56 lbs. (bu.) \$5.00.

Dwarf Essex Rape

Sow 4 lbs. in drills, or 8 lbs. broadcast per acre.

F.O.B. Plant City, except 1 lb. lots or less, which are postpaid.

Pkt. 10c; 1 lb. 35c; 10 lbs. \$2.80; 25 lbs. \$6.50; 100 lbs. \$25.00.

Sunflower

Sow 6 lbs. per acre.

F.O.B. Plant City, except 1 lb. lots, which are postpaid.

Mammoth Russian, 1 lb. 35c; 10 lbs. \$2.80; 25 lbs. \$6.50, 100 lbs. \$25.00.

THE HOME FLOWER GARDEN

We carry complete stocks of flower seeds of all kinds and varieties adapted to Florida. For a complete list of flowers and rose bushes, we refer you to our "Flower Guide for Florida," which may be obtained free of charge through any of Kilgore's twelve Florida stores or by writing the Kilgore Seed Company, Mail Order Department, Plant City, Florida.

All Flower Seeds are priced at 10c per packet, postpaid.

INSECTICIDES and FUNGICIDES

(F.O.B. Plant City and all stores)

All insecticides are permitted in the mail with the exception of Cyanogas, Bi Sulphide of Carbon and Ammonia.

FOR THE HOME GARDEN

Because of existing shortage in certain raw materials, we have chosen a limited number of standard and excellent insecticides and fungicides, which we feel will aid in the control of the common insects and diseases usually found in vegetable gardens in Florida.

Nicotine Pyrox. A combination spray containing copper, nicotine and calcium arsenate. Particularly effective in the control of tomato fruit worms, squash worms, aphids and thrips. Prevents blight and certain other diseases. Nicotine Pyrox should not be used on such crops as cabbage, cauliflower, lettuce, etc., after plants begin to head.

Black Leaf 40. For the control of aphids and thrips, when weather conditions are proper.

Kilgore's General Purpose Dust. An excellent nonpoisonous dust, containing 8% Dry Pyroicide, ideally suited for the control of most sucking and chewing insects on many crops, particularly those where poisonous materials are not desired. This dust is packed in a container which can be used as a dust gun. The gun is refillable.

Kilgore's Poison Bait No. 3. (Contains calcium arsenate). An improved type of poison bait. Will not pack or harden in storage and retains its freshness. For the control of cutworms and mole crickets.

FOR COMMERCIAL GROWERS

Acco-Casein Spreader, 2-lb. pkt. 50c.

Arsenate of Lead Powder, 1 lb. 30c; 4 lbs. 55c.

	Per lb.	25 lbs.	50 lbs.

Root-Inducing Materials and Plant Stimulants

HORMODIN AND ROOTONE—SPEED ROOTING OF CUTTINGS

HORMODIN POWDERS (Postpaid)

No. 1	No. 2	No. 3
For Chrysanthemums, Poinsettias, Roses, etc.	For semi-woody plants and most common shrubs.	For resistant species such as evergreens and dormant leafless cuttings.
1/4 oz. \$.25	1 3/4 oz. \$.75	1 oz. \$1.00
1 3/4 oz.50	1 lb. 4.50	1/2 lb. 4.50
1 lb. 3.00		
Combination Package, 1 oz. 75c. Contains 1/2 oz. No. 1, 1/4 oz. No. 2, 1/4 oz. No. 3.		

ROOTONE (Patents Pending) Postpaid

A hormone powder to hasten the rooting of cuttings. Complete directions on each package. Postpaid prices: 1/4 oz. 25c; 2 oz. package, will treat up to 3,000 cuttings, \$1.00; commercial package, 1 lb. will treat up to 30,000 cuttings, \$5.00.

TRANSPLANTONE—A Plant Stimulant

Contains Vitamin B₁ plus root hormones. 1 oz. powder makes 10 gallons solution. 1/2 oz. can 25c; 1 oz. 50c; 3 oz. can \$1.00; 1 lb. can \$4.00.

HYPONEX—A Good Starter Solution

Especially valuable in seedbeds and to start plants off after transplanting. Comes in a powder which makes liquid plant food containing all plant food elements plus Vitamin B₁.

3 oz. can—makes 18 gallons	\$.25 postpaid
1 lb. can—makes 100 gallons	1.00 postpaid

FERTILIZERS

Put up in 100-lb. bags, F.O.B. Plant City except 300 lbs. or over delivered rail freight prepaid to any point in Florida served by railroad, from warehouse in Jacksonville.
